

GEOSTONE COLOUR

Mainly used outside the home and it's a great way to add vibrancy to any space.

**Colour concrete
complements existing
features around your home.**

Some places that are common for Geostone Coloured concrete to be used are pool areas, driveways, entertaining areas, and even for your garage floor.

Add the vibrancy you are looking for.

Instead of a plain concrete floor, you can choose a variety of different colours.

Take a look at the Geostone Coloured Concrete brochure to see the colour options available in our region.

To get a free quote on your concrete project, feel free to call us on 03 5613 2013.
